

# TECHNICAL INFORMATION

## WESTCO MBT Soft Granule

### Mercaptobenzothiazole

Westco MBT is a primary accelerator for natural rubber and synthetic rubbers. Excellent low temperature curing properties. May be used in non staining and non black applications.

#### Specifications

Appearance	Light yellow/yellow
Form	Soft Granule
Melting Point, °C	*170 min
Purity, %	95.0 min
Ash, %	*.3 max
Moisture, %	*.5 max
Content of Oil, %	NA
Grain strength	*1-2
Specific Gravity, typical	1.51

\* Actual data will be reported on Certificate of Analysis

**Solubility:** Soluble in acetone, ether, alcohol, benzene, chloroform, carbon tetrachloride.  
Slightly soluble in water when mixed with alkalines.

Rev. 1-08
