

TECHNICAL INFORMATION

Westco OBSH (C)

Chemical name: p,p'-oxybis (benzene sulfonyl) hydrazide

Westco OBSH is a non-staining, non-discoloring blowing agent for rubber and plastics. It has a low decomposition temperature allowing it to be used without activators.

Specifications:

Appearance:	White Powder
*Moisture, %:	0.5 max.
*Decomposition temperature, °C:	150-164
*Gas release, ml/g:	120-134
PH	6-8
D50	5-10 microns
D90	20 microns max.
Specific Gravity:	1.53

*Values reported on certificate of analysis

12/08C
