

TECHNICAL INFORMATION

WESTCO AO 29 Styrenated diphenylamine

Appearance:	Viscous amber liquid
*Assay, %:	70-80
*Ash content, %:	0.2 max
*Loss on heating, %:	0.3 max
*Refractive index @25°C:	1.633-1.643
*Specific gravity:	1.08-1.10
Packaging:	200 kg net wt drums

***Actual data will be reported on Certificate of Analysis**

Westco AO-29 is a non-staining, slightly discoloring antioxidant for natural and synthetic rubbers and latices. Westco AO-29 provides excellent resistant to heat aging and flex fatigue. It is especially effective in polychloroprene.
