

WESTCO™ OBSh Blowing Agent
p,p'-Oxybis-(benzenesulfonyl hydrazide)
CAS# 80-51-3

Technical Data:

WESTCO™ OBSh is a non-staining, non-discoloring blowing agent for rubber and plastics. It has a low decomposition temperature allowing it to be used without activators.

Specifications:

Appearance	White Powder
*Gas release	125 ± 6ml/g
*Decomposition temperature	150 - 165 °C
Average Particle size	6 – 8 microns
*Moisture	0.4% Max.
pH Value	5.5 - 7.0

*Values reported on certificate of analysis

Packaging: 25 kg/Fiber Drum lined with PE bags inside.

Storage Conditions: Keep in cool dry place at room temperature, avoid exposure to sunlight.
