

Westco Peptizer A60

CAS# 135-57-9

Westco Peptizer A60 is a blend of zinc soaps made primarily of high-molecular weight fatty acids that is soluble in natural and synthetic rubber. Effectiveness begins at lower temperature range of compounding and can be used for mastication in a separate stage as well as for single stage mixing and mill mixing.

Property:

Specification:

Appearance
*Melting Point C°
*Ash, %
Iodine Value g/100g

Beige pastilles
85-108
12-15
40-50

*Actual values reported on Certificate of Analysis

Packaging: 25 kg/bag with PE liner

Shelf life: 2 years when stored in cool, dry and well ventilated conditions

Revised: 09/2016
