

WESTCO™ Peptizer A86 Process Aid

CAS# 135-57-9

Technical Data:

WESTCO™ Peptizer A86 is a blend of organo-metal complexes, with other peptizers and inorganic dispersing agents and is used as a combination peptizer and processing aide for natural and synthetic rubber.

Property:

Appearance
*Melting Range °C
*Ash, %≤
*Density (g/cm³/20°C)

Specification:

Dark blue granule
50-60
16-18
1.26 - Typical

*Actual values reported on Certificate of Analysis

Packaging: 25 kg Paper and Poly bag.

Shelf life: 2 years when stored in a cool, dry and well ventilated environment
