

# **WESTCO ETU-80**

**(Ethylene Thiourea in polymer  
binder) CAS# 96-45-7**

## **CHARACTERISTICS**

A soft easy dispersing pellet form of Ethylene Thiourea in a proprietary polymer blend binder. This product is screened through a 120 mesh screen during production. Its primary use is an accelerator in rubber compounds, especially those based on polychloroprene elastomers.

## **SPECIFICATIONS**

<b>Appearance</b>	<b>Off-white-soft pellet</b>
<b>*ETU Content%</b>	<b>77.0 - 81.0</b>
<b>*Sulfur Content, %</b>	<b>23.5 – 25.5</b>
<b>*Binder Content% (By Calculation)</b>	<b>19 - 23</b>
<b>*Mooney Viscosity @ 50C (mL 1+4)</b>	<b>40.0 – 70.0</b>
<b>*Density (20°C)</b>	<b>1.15</b>

**\*Actual data will be reported on Certificate of Analysis**

**Packaging – 25 kg plastic lined corrugated box**
