

WESTCO™ TDEC Accelerator
Tellurium Diethyldithiocarbamate
CAS# 20941-65-5

Technical Data:

WESTCO™ TDEC is an ultra-fast accelerator for natural and synthetic rubber compounds. It can also be used as an activator for thiazole and thiuram accelerators.

SPECIFICATIONS

APPEARANCE	Orange - Yellow Powder
*Melting Point	108 °C Initial Min.
*Melting Point, Final ()	112 - 122 °C Final
*Sieve residue on 100 mesh (150µm)	0.10%
*Sieve residue on 230 mesh (63µm)	0.50% Max.
*Moisture content	0.50% Max
*Tellurium content	16.0 - 19.0% Max.
*Oil content	2.50% Max.
Specific gravity at 20°C (typical)	1.57

***Actual data will be reported on Certificate of Analysis**

PACKAGING

25 kg woven plastic bags or paper bags

STORAGE

Keep cool and dry in closed original packaging with adequate ventilation.
Avoid exposure to direct sunlight.
2 year shelf life.
