

**WESTCO™ ATO-90 Flame Retardant
Antimony Oxide Powder Dispersion
CAS# 1309-64-4 Antimony trioxide
Proprietary Polymeric Binder**

Technical Data:

WESTCO™ ATO-90 is an 90% High tint antimony oxide powder (approximately 1 micron particle size) dispersion treated with a proprietary polymeric binder used as a flame retardant synergist in rubber, plastics, and related polymer applications.

Specification:

ACTIVE INGREDIENT:	Antimony Oxide
BINDER:	Proprietary Polymer
PRODUCT FORM:	Powder
COLOR:	Off-White
SPECIFIC GRAVITY, G/CC	4.24-4.44
Ash, %	92-98
Volatiles, %	2-8
PACKAGING:	50# per bag
HANDLING:	Wash hands after use. Contact with skin should be minimized.
STORAGE:	Store in a cool, dry area in a sealed Container.
SHELF LIFE	Two year shelf life when stored under proper storage condition.
