

**WESTCO™ AO-29 Antioxidant
Styrenated diphenylamine
CAS# 68442-68-2**

Technical Data:

WESTCO™ AO-29 is a non-staining, slightly discoloring antioxidant for natural and synthetic rubbers and latices. WESTCO™ AO-29 provides excellent resistant to heat aging and flex fatigue. It is especially effective in polychloroprene. WESTCO™ is a chemical analog to Wingstay™ 29.

Specification:

Appearance:	Light yellow liquid
*Viscosity (@ 25C)	20,000 – 40,000 mPa
*Ash content	0.3% Max.
*Loss on heating	0.3% Max.
*Refractive index @ 25°C:	1.633-1.643

***Actual data will be reported on Certificate of Analysis**

Packaging: 200 kg net wt drums

Wingstay™ 29 is a trademark of Omnova.
