

**WESTCO™ BHT (KOSHER) Antioxidant
Butylated Hydroxtoluene
CAS# 128-37-0
“NON-STAINING” ANTIOXIDANT**

Technical Data:

WESTCO™ BHT is a versatile antioxidant that acts as a stabilizer and processing aid in natural and synthetic elastomers, polymeric materials subject to oxidation, packaging materials, waxes, insecticides, synthetic lubricants, paints, etc. WESTCO™ BHT meets FDA specifications as an addition to a variety of food products, packaging, and other materials coming in contact with food products. It retards oxidation in animal, vegetable and mineral oils, fats, greases and products containing these materials. WESTCO™ BHT is Kosher Certified.

Specifications

Appearance	White to Colorless crystalline powder or beads
*Melt Point	69.0°C Min.
*Color, APHA	50 Max.
*Assay	99.0% Max.
*Residue on ignition (Ash content)	0.005% Max.
*Moisture	0.1% Max.
*Free Phenol	0.02% Max.
Sulfate (as SO₄)	0.002% Max.
*Heavy Metal (as Pb)	10 ppm Max.
*Arsenic	1 ppm Max.
Specific Gravity	1.03

*Actual data will be reported on Certificate of Analysis

STORAGE STABILITY

WESTCO™ BHT is stable over long periods of time when stored under normal (below 77o), dry conditions, unopened, in the original container. In prolonged storage the material may yellow slightly. Activity of the product is unaffected. Packaging: 25 Kg Net
