

WESTCO™ CP-70 CHLORINATED PARAFFIN RESIN CAS# 63449-39-8

Technical Data:

WESTCO™ CP-70 is a chlorinated paraffin used in rubber and plastic goods as a fire retardant additive and process aid. WESTCO™ CP-70 features chemical reagent resistance, compatibility, and heat stabilization.

SPECIFICATIONS:

Appearance:	White to light yellow powder
*Chlorine content	70% ±1
*Softening point	95°C Min.
*Thermo stability 175°C	0.2% HCl Max.
*Drying loss	1.0% Max.
*Sieve residue (20 mesh)	0.02% Max.
*Acidity, typical	0.10 mg KOH/g
Specific Gravity, typical	1.60

***Values reported on Certificate of Analysis**

Packaging: 25 Kg Net Bags
