

WESTCO™ CT-AM Antioxidant
Low temperature reaction product of diphenylamine and acetone
CAS# Mixture

Technical Data:

WESTCO™ CT-AM is an antioxidant for CR, NBR, NR, SBR and their latices. It is non-blooming and provides excellent protection against heat aging and flex fatigue. Used at 1 to 2 phr, it provides optimum aging resistance.

Specifications

| | |
|---------------------------------|-----------------------------------|
| Appearance | Dark brown powder or flake |
| *Softening point | 85-95°C |
| *Moisture | 0.5% Max. |
| *Ash | 0.5% Max. |
| Density at 25°C, typical | 1.16 g/cm³ |

***Values reported on Certificate of Analysis**

Packaging 25 kg net wt in HDPE bags with LDPE inner liner.
